Dear Majid

International Patent Application No PCT/GB01/01720

Picstel Technologies Limited

Catch: EPAGE FILE INFO FORMAT

IP Title: "Systems and Methods for Digital Document Processing"

We have now received the International search report, and I enclose a copy of this together with copies of the three documents cited by the search Examiner.

The Examiner's notations indicate his view is that WO97/34240 is relevant to the novelty of the invention. The other two documents are cited as being of background interest only. We have not at this stage incurred the cost of studying this material in detail.

There is no requirement to take any specific action in response to the issuance of this search report. It would be useful, however, if you would review the enclosed documents on receipt and contact me to discuss their significance.

It will be necessary for Ed Kelly to disclose the results of the International Search to the US patent Office. Accordingly, I am sending him a copy of this letter and its enclosures to him.
